

**Professor Aleksandar Subic, Professor and Head of School, School of Aerospace, Mechanical and Manufacturing Engineering, RMIT University**

Professor Aleksandar Subic is the Head of School of Aerospace, Mechanical and Manufacturing Engineering at RMIT University. He completed his Bachelors, Masters and PhD degrees at the University of Belgrade and has worked on postdoctoral research projects in the UK and Germany. He holds the positions of Director of Society of Automotive Engineers Australasia and Education Director of AutoCRC.

Prof. Subic is internationally recognised for his contributions to research and education in engineering which is evidenced by a number of international appointments, including Fellow of the Society of Automotive Engineers, Fellow of the International Energy Federation, President of the International Sports Engineering Association (ISEA), Editor-in-Chief of *International Journal of Sustainable Design and Sports Technology Journal* published by Wiley, Guest Editor and Member of Editorial Boards of *International Journal of Vehicle Design*, *European Journal of Engineering Education* and *Sports Engineering* published by Springer.

Prof. Subic has around 25 years of research experience, during which he has achieved over \$7 million of research income and over 220 international peer reviewed publications. He has received a number of international awards for innovation in engineering research including the ISPO World Expo and Technical University of Munich Innovation Awards.
