

Ali Baghaei, Chief Executive Officer and Executive Director, Oceanlinx Ltd

Ali Baghaei is a highly experienced industrialist and senior executive with over 20 years successful international commercial, technical, financial and leadership capability across a wide range of industries including: capital works construction, marine, defence and power generation. He has developed and delivered significant capital projects ranging from power generation plants to defence systems and shipbuilding including leading a A\$30 billion Future Aircraft Carrier and Maritime Airborne Surveillance and Control program for the UK Ministry of Defence. He has considerable cross cultural experience in the UK, Europe, South East Asia and Australia.

Ali's recent roles have included Executive General Manager - Transfield, Vice President and Director - Naval Business Group for Thales / ADI, and Program Director - Ministry of Defence (UK).

In addition to his marine engineering qualifications, Ali is a chartered engineer and holds a master of engineering degree in mechanical and manufacturing engineering with distinction. He is a Fellow of the British Institute of Mechanical Engineers, a Member of the Royal Corps of Naval Constructors and a member of the Australian Institute of Company Directors. Ali joined Oceanlinx in March 2009.
