

Grant Egerdie, General Manager (Commercial), Solar Shop Australia

Grant Egerdie is originally from Vancouver Canada. His formal qualifications are Mechanical Engineering coupled with a MBA, and he is a member of the Australian Institute for Company Directors.

Grant's career has been in the Energy industry, with his first 16 years at EXXON and most recently as CEO of Coffey Information, a worldwide leader in specialist engineering consulting. He has global client experience with organisations such as Nissan, Toyota, John Deere, Caterpillar, Shell, Alcan and BHP and industry experience in Energy, Resources and Construction. Grant's experience includes large long-term contracts, major projects, alliances, new business start-ups and expansion globally. He has managed 12 Merger/Acquisitions, and has set-up joint ventures in Europe, North America and Japan.

Solar Shop Australia has begun to address the emerging industrial and commercial Solar PV market. Grant has recently joined as the General Manager of the Commercial Division, with a view to growing this business. Grant makes his home currently in the Blue Mountains of New South Wales where he has lived for most of the 10 years since moving to Australia.
