

**Mark Kibby, MBA, BBS Commercial Manager, Suntech Power Australia**

Mark has 15 years commercial energy experience working with utilities and energy retailers in both New Zealand and Australia. He has negotiated Power Purchase Agreements for natural gas, electricity and renewable energy. In addition, he has been active in the procurement of wholesale natural gas contracts and the selling of generation capacity to energy retailers.

In a business development capacity, Mark was involved with some of the first Solar Power Purchase Agreements in Queensland and renewable energy remains his passion.

As the Commercial Manager at Suntech he is charged with developing PV solar energy opportunities throughout Australasia and the Pacific.
