

Niels Nielsen, Overseas Commercial Manager, Lunar Energy Ltd

Niels Nielsen has worked in renewable energy throughout his 40 year career, mainly in hydropower, but more recently including the marine energy sector. Niels holds engineering degrees from the University of St Andrews; Imperial College, London University and the University of Hawaii at Manoa. Niels retired from BC Hydro in Vancouver, BC, Canada, where he managed the Energy Futures program for Engineering. This included assessment of the wind energy, small hydro, biomass and the wave and tidal energy resources across BC, and ways to develop them.

Niels is presently the Overseas Commercial Manager for Lunar Energy Ltd., a UK based tidal energy technology company. He is presently working on the development of projects in Korea, China, Chile, Turkey and Canada. Niels is also Joint Secretary of the IEA Hydropower Implementing Agreement with his wife, Lori, and together they provide management consultant services in information research and asset management.

Since retiring to live in Adelaide, Niels has focused his activities on striving to enable to development of renewable forms of energy across the Asia region, as well as Australia and New Zealand. He hopes you will be encouraged by the recent advancements in tidal energy he will be presenting
