

Richard Ebbs, Operations Manager, Power and Energy, SKM Consulting

Richard Ebbs is the Power and Energy Operations Manager South East Australia. In this role Richard manages regional service delivery for clients active in the power sector and in particular the renewable generations sector.

Richard has been involved in the delivery of wind projects throughout Victoria, Tasmania and South Australia and continues to take a leadership role in community engagement and its understanding of the challenges and benefits of a renewable energy future. Richard has worked with the OECD and the International Energy Agency in France developing economic policy to support the power industry globally and to foster international consensus on a broad range of policy – economic and environmental objectives.
